HALL BOOTH SMITH, P.C.

ARBITRATION & MEDIATION

HBS can help your team resolve disputes efficiently and effectively before they reach the courtroom.

OVERVIEW | SOLUTIONS

Overview

Our Arbitration & Mediation service group offers a wealth of experience from all sides of the table. We proudly offer alternatives to litigation in resolving disputes and conflicts that arise in the course of everyday life and business and recognize that disputes arise which are better suited to be resolved in an alternative dispute resolution process, rather than through the traditional court system. Our attorneys are skilled through years of experience and alternative dispute resolution training and certification.

When selecting an HBS mediator, you will experience the comfort of playing an active role in resolution through confidential and constructive negotiation. Our attorneys excel in facilitating a well-informed and efficient mediation process by which the parties mutually resolve their differences. At the conclusion, we assist in crafting an agreement which embodies the letter and spirit of the parties' mutual intent.

Mediation conducted by our highly trained and experienced mediators offers an informative and comfortable atmosphere conducive to communication and cooperation. We have found over the years that by facilitating open and honest communication between the parties while recognizing motivating factors unique to each situation we can consistently provide a satisfying and successful mediation experience. Parties leave the alternative dispute resolution process feeling fully informed, completely
