

GOVERNMENTAL LIABILITY

HBS offers a team of talented attorneys who protect the interests and rights of those who encounter complex challenges as they serve in government jobs.

[OVERVIEW](#) | [SERVICE](#) | [OUTCOMES](#) | [BLOG](#)

Overview

Those who serve in government jobs face increasingly complex challenges and intricacies in balancing the demands of local, state and federal government in addition to the needs of the business community and the public. Enforcing statutes and ordinances while also fostering business growth often makes public entities and officials targets in today's litigious society.

Hall Booth Smith's Governmental Liability service group take a comprehensive and holistic approach to counseling leaders on all legal needs, from risk mitigation and litigation prevention to rigorous defense when litigation ensues.

HBS attorneys bring extensive government experience to the table including previous service in numerous elected positions and government leadership and administrative roles. HBS has defended more than 250 government entities on a wide range of matters. Our attorneys are active in the courtroom and the day-to-day business of local and state government, and we are active in influential government organizations and associations.

The voice of our law firm is heard through the individual involvement of our attorneys in serving the people:

- Metropolitan North Georgia Water Planning District's Basin Advisory Council for the Ocmulgee River Basin and the City of Covington, Georgia's Urban Redevelopment Authority

Service

With over 15% of the nation's work force employed in the public sector, local public entities and officials are prime litigation targets nationwide. By their respective jobs' very natures, these servants interact with local and national business, the financial sector, the public itself, and most every other industry there is on a daily basis. The regularity of these contacts invites everyday significant risks into play. Every. Single. Day.

Serving those who serve the public has long been one of the cornerstones of HBS' promise: Serving to Achieve Excellence. Historically covering the entire State of Georgia and now offering expertise throughout the Southeast, the HBS Governmental Liability practice group lends its expertise alongside our [Government Affairs](#) team to offer the most comprehensive level of public sector representation in the region.

In Georgia alone, HBS serves as General Counsel throughout the state, counting over 20 individual governments that rely on our day-to-day proactivity, accessibility, and attentiveness. We are continually asked to serve as litigation counsel, special counsel, and in top-end investigations. We serve our clients through all major carriers as insurance counsel, and have won Section 1983 jury trials in every Georgia Federal District. Separately, and more narrowly, the firm has also won public sector employment cases in every Georgia Federal District. HBS has defended over 325-plus public entities throughout the Southeast.

We partner with our clients to successfully defend against every form of public sector claim that can be brought, to include the categories below. Join our passion in serving those who serve.

Full Team

“How Long Do We have to Keep This?” Record Retention for Local Law Enforcement Documents

January 28, 2022

Written by: Rebekah Maddox Ditto, Esq. and Jennifer D. Herzog, Esq. Having the honor to represent numerous local law enforcement agencies we often get the question (usually in response to an open records request but sometimes as a result of a lack of space for storage), “How long do we have to keep this?” The

Whose Precedents Count for Qualified Immunity?

December 28, 2021

Written by: Pearson Cunningham, Esq. On October 18, 2021, the Supreme Court summarily reversed the Ninth Circuit’s denial of qualified immunity to a Union City, California police officer in *Rivas-Villegas v. Cortesluna*. Many commentators and critics of the qualified immunity defense were a bit surprised. Just last fall, the Court seemed to signal that its
